ORDER YOUR SEED EARLY

BUSINESS FROM AN "YOU CAN'T DO **EMPTY**

Have a supply on hand when your customer comes in to buy. You have a big advantage when you have the seed to show him. Some customers will want to buy in December to include the seed cost in this year's business. With seed on hand, you make these extra sales. By ordering NOW you can be sure of having legume and grass seed varieties and origins you can sell easier.

Impress your customers with the advantage of early buying or early booking. These early orders will give you a good start on the season and also save possible disappointment when "sought after" varieties may no longer be available.

OUR ST. LOUIS PLANT

Convenient location: just south of Municipal (Free) Bridge—near truck depots, railroads, wholesale district—out of congested area.

Ample truck-loading space—off the street—with free parking lot. Two entrances-Fourth or Third St.—to platform which can serve 22 trucks at a time.

Railroad trackage alongside building. Bulk unloading provided for.

Building contains 150,000 square feet. Newest types cleaning machinery, with arrangement for quick, efficient, economical handling and cleaning of seeds.

Large, modern, daylight seed-testing laboratory to control buying, cleaning and preparation of seeds to meet and surpass requirements of the Federal and various State seed laws.

St. Louis is close to the producing territory of a wide assortment of Grasses, Clovers, Beans, Peas and Forage seeds, enabling us to offer first-hand at low prices.

In addition, we operate our large cleaning and storage plant at Atchison, Kansas, for handling and cleaning seeds originating in that area and the West. Atchison is in the northeast corner of Kansas, just across the Missouri line, in the center of the Blue Grass producing districts of Missouri, Kansas,
